

Pa por yega na produccion pa Aruba Aloe Balm

Tereno na Hato ta worde mehora pa mas mata di Aloe

E tereno na Hato, caminda e cultivo di aloe ta tuma lugar...

Señor Winterdaal ta muestra con e gel ta basha for di un blachi corta.....

ORANJESTAD(AAN)--

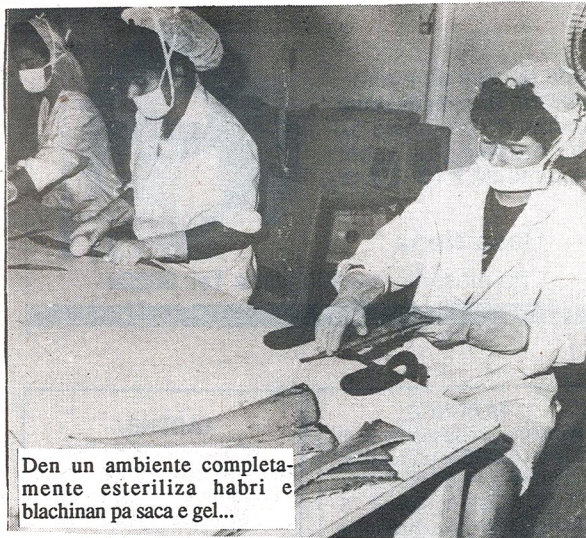

Na Hato, un tereno di 63 hectare, ta worde usa pa un obhetivo especial. Ariba e tereno aki e materia prima pa produccion di productionan di aloe, cu mundialmente ta haya mas atencion di consumidornan, ta crece. Mientras e matanan, cu ya ta ariba e tereno ta worde gecheck tambe y caminda posible usa, testnan ta worde haci ariba e tereno, cu ta worde mehora pa mas produccion di mata di aloe.

Constantemente ta planta mas mata di aloe, mientras cu actualmente ta mehora e condicion di un gran parti di e tereno pa asina e fabrica di Aruba Aloe Balm por haya su materia prima.

Ora e blachinan worde corta, nan ta worde hiba e fabrica, caminda nan ta worde laba cu detergentenan especial diferente biaha. Den un ambiente completamente esteriliza, pa evita contaminacion cu bacteria, e calidad di e gel ta worde controla pa despues e gel, cu ta worde saca for di e blachinan, worde deponi den bakinan. Asina e proceso por worde encamina.

E gel por worde conserva pa varios dia, pero e planta ta opta pa usa e gel dentro di uno o dos dia pa garantiza su calidad, cu ta sumamente importante den produccion di articulonon cosmetico, cu ta worde presenta na mercado local y internacional.

Actualmente lo tin basta trabao ta tuma lugar na e tereno na Hato, cu ta e fuente di aloe pa e planta Arubano.

Den un ambiente completamente esteriliza habri e blachinan pa saca e gel...
